	so far.	
09.03.2012	After breakfast and "Good Morning Flashlight" we started to work on WORKLINE C where we made few finesses on our already existing idea for map and then we all had voting which map is going to be the official map of this project. And I am happy to say that idea which came from my group is going to be used to build electronic map for project	Spent my lunch and dinner break with people from Ireland, and later on we went out.
	Following the lunch, we had meeting for "WORKLINE A" about making some more decisions for our locomotive and we discussed the thing that has to be done until the next meeting in Slovenia.	
	After WORKLINE A meeting, we had group meeting for WORKLINE B where we were given new tasks that ought to be done at and before next meeting.	
	The last group work of this meeting in Portugal was the one for WORKLINE D on which we made a little tutorial to help people make Skype and had gave homework to all participants. The homework was to make Skype account so we could collect it.	
	On "Good Evening Flashlight" we reviewed our last hard working day.	
10.03.2012	This day was the cultural one. We visited a lot of famous sights in Lisbon (such as historical site of Belem). In the evening, firstly we had "Evaluation and Homework" meeting where we reviewed every decision for next meeting and congratulated each other for hard working on this meeting.	Hanging out with a lot of people on sightseeing tour and went out in the evening with Irish friends to celebrate our last night in Lisbon, Portugal.
	Then, we got ready for closing dinner where we said goodbye with all of the participants of this meeting.	
11.03.2012	I woke up in 0620h to get ready for breakfast and departure from hotel to airport.	Said final goodbye with Italian student which we later on saw on airport, whished a good luck to them and expressed a hope to see them at least on the last meeting of this project.
EVALUATION OF THE MEETING, COMMENTS, NOTES	For me, this meeting was a pure blast. Even though I worked very hard I enjoyed it very, very much and I really look forward to the next meeting in Slovenia in May of 2012.
